# Red Envelope

Materials

- Red Envelope Template
  - We used the Red Envelope template from ThriftyJinxy.com
- Red Paper
- Scissors
- Glue

Optional:
- Markers
- Glitter

Instructions

1. Download the template and print it out. You can choose to print it out directly onto the red paper and then cut it out. Or, if your paper is too thick for your printer, print it out on regular paper, cut it out, and trace it over red paper.
2. Once you have your template printed and cut out, simply fold it along the lines and glue together the two sides (labeled glue). Make sure to leave the top open!
3. Decorate and done!
