LEARN MORE!
In the spirit of keeping the National Chinese Language Conference an open venue to share and discuss relevant and emerging changes and challenges in education, Asia Society and the College Board invite presenters, speakers, and members of the education community to present, lead, and participate in sessions and panel discussions. The opinions expressed by our guests are those of the individual speakers and do not necessarily reflect the views or official policies of Asia Society, the College Board, or of an institution where individual speakers may be employed.

Asia Society is the leading global organization working to strengthen relationships and promote understanding among the peoples, leaders, and institutions of Asia and the United States. Its Global Learning and Leadership Network and Chinese Language Initiatives are committed to enhancing the capacity and quality of Chinese language and culture programs in U.S. schools through raising awareness, offering expertise, and catalyzing action on critical issues.

The College Board is a mission-driven not-for-profit organization that connects students to college success and opportunity. Founded in 1900, the College Board was created to expand access to higher education. Today, the membership association is made up of over 6,000 of the world’s leading educational institutions and is dedicated to promoting excellence and equity in education. Each year, the College Board helps more than seven million students prepare for a successful transition to college through programs and services in college readiness and college success — including the SAT® and the Advanced Placement Program®. The organization also serves the education community through research and advocacy on behalf of students, educators and schools.
