A Future-Ready Workforce: Preparing Community College Students for a Global Economy

Faculty Module 2:
Developing a High-Quality
Internationalized CTE Program

Faculty Guide

ECMC

Funded through the generous support of **ECMC** Foundation

Your next steps are:

1. Review the U.S. Department of Education [Employability Skills Framework](#). Consider how it aligns with global competence development.
2. Consider how to improve CTE programs with ACTE's [Quality CTE Program of Study Framework](#).
3. Evaluate your CTE program and institution with the Longview Foundation's Internationalizing CTE Programs [Self-Reflection Tool](#).
4. Consider how ACTE's Quality Program of Study Framework and the Longview Self-Reflection Tool can help strengthen the internationalization efforts in your program. Then use the [Global Social Justice Education Framework](#) improvement process to put your ideas into action.
5. Be sure to check the Asia Society Global CTE [Toolkit](#) for free tools and resources.

When you have completed these activities, you will be ready for “Faculty Module 3: Engaging Diverse Students.”
