

ASIA SOCIETY HONG KONG CENTER

SUMMER SERIES 2020!

Heritage Architecture Camp: Asia Society Model Building

Online activity

Want to own an award winning architecture at home? Want to know the structure of the unique architecture that situate on a steeply sloped and surrounded with greens?

Let's follow the template and steps to build the model of Asia Society Hong Kong Center.

Top view of Asia Society Hong Kong Center

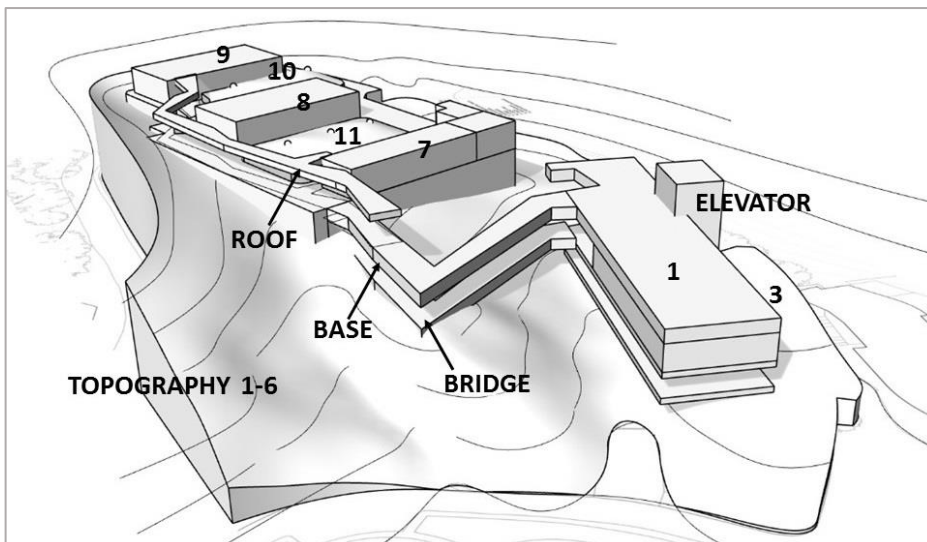

What do you need?

- ASHK premises template (download PDF here)
- Six A4 size 3mm thick cardboards
- White glue
- Cutter or scissors
- Dry twig/ toothpick
- Pencil
- Cutting mat

How to make it?

1. Cut out Topography 1-6 from template; glue on cardboards, then cut.
2. Assemble Topography 1-6 with glue. 1 on the bottom, 6 at the top.
3. Cut out BASE and glue on cardboard. Glue it on Topography 6.
4. Cut out Topography 7, 8, 9, 10, 11; then glue them on cardboards. Assemble the same number together with glue.
5. Place Topography 7-11 on BASE in this order

6. Cut out all three Topography 1 and glue on cardboard; assemble them together with glue and place one the underneath where the arrow show.
7. Cut out BRIDGE and ROOF, glue them on cardboard and cut them out.
8. Place the BRIDGE under the elbow shape walk path; use toothpick to hold a gap in-between.
9. Place ROOF above BASE.
10. You can use dry twig to make trees model to place around the building.

How it should look like?
