

FREE SCHOOL GROUP TOURS AT ASIA SOCIETY

COAL + ICE

Inspiring Climate Action through Art and Ideas

February 13, 2024 – August 11, 2024

Attention educators: You're invited to bring student groups to Asia Society Museum for a **free guided tour** of COAL + ICE, an immersive photography and video exhibition. This visual journey focuses on the causes and effects of climate change and proposes creative solutions for a sustainable future. Asia Society will provide a study guide to help teachers engage students on climate change topics before visits or to use in classes that can't make it in person.

Students of all ages are also welcome at our rich series of speaker events and performances over six months, primarily held in New York City, about creating our best possible climate future, including special activities for young minds.

Learn more at AsiaSociety.org/coalandice. COAL + ICE is co-curated by Susan Meiselas and Jeroen de Vries, and led by Orville Schell and Asia Society's Center on U.S.-China Relations.

If you are interested in scheduling a group tour for your students or more information about this project, please get in touch with Claudia Klinck at cklinck-consultant@asiasociety.org.

725 Park Ave. (at 70th St.) New York City
